

Selenium- Session 1 – Assignment 2

Task:

Please try to configure Internet Explorer browser and Chrome Browser. We will do the same in the session as well. But before that try to check on the exception you're getting.

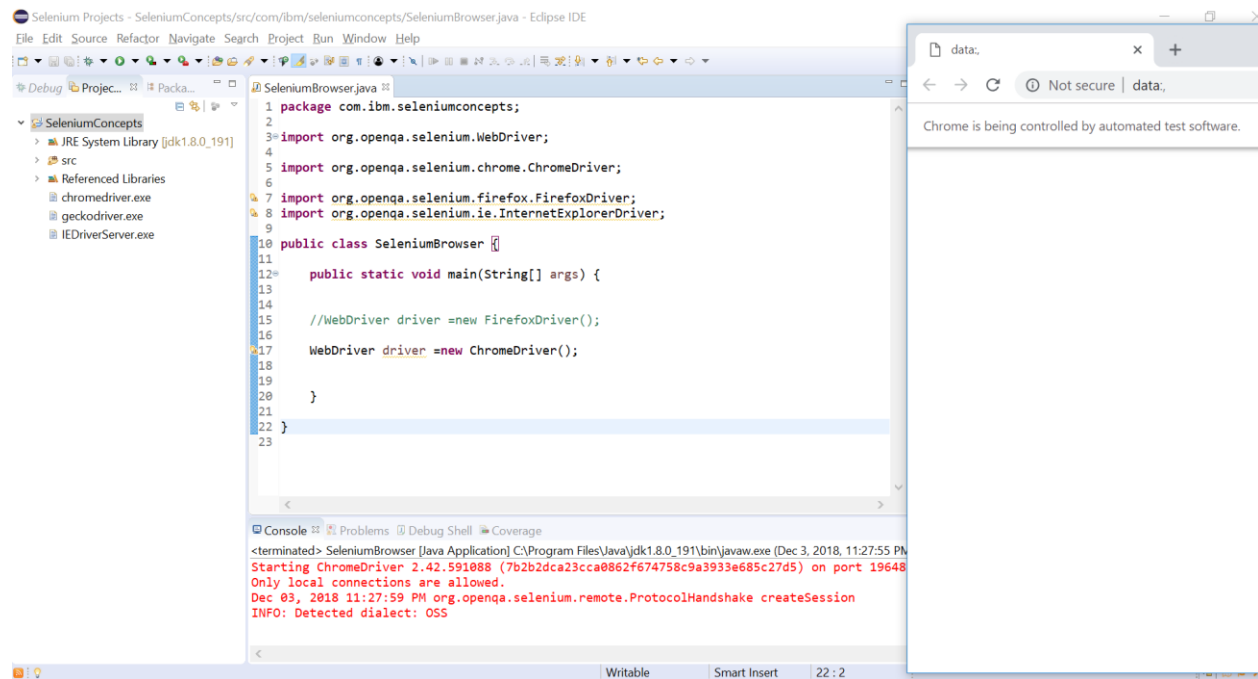

Firefox browser: Installed WebDriver for FirefoxDriver and added to project 'SeleniumConcepts'

After running, WebDriver `driver =new FirefoxDriver();` from the project successfully launched the IE browser.

Chrome browser: Installed WebDriver for ChromeDriver and added to project 'SeleniumConcepts'.

Run WebDriver `driver =new ChromeDriverDriver();` from the project successfully launched the Chrome browser.

Internet Explorer browser: Installed WebDriver for InternetExplorerDriver and added to project 'SeleniumConcepts'

Run WebDriver `driver =new InternetExplorerDriver();` from the project successfully launched the IE browser.
